

PHOSPAT[®]

TECHNICAL DATA SHEET

PHOSPAT[®] ACUTE

Liquid precipitating agent to improve filtration

PHOSPAT[®] ACUTE reduces the concentration of phosphate and gives you a cristal clear water. If the content of phosphate is higher than 1 mg/l, we recommend pretreating your water before using the PHOSPAT[®] cartridge. PHOSPAT[®] ACUTE acts as precipitating agent and improve the filtration of your filter

- Precipitate phosphate from water
- Recommended as a first treatment before using the PHOSPAT[®]'s
- Acts as precipitant with depot effect
- Improve the filtration of your filters
- Dosage calculable on the basis of the measured phosphate value
- Binding capacity of approx. 40'000 mg phosphate per liter Acute
