

PRODUCT INFO BISAM 44 BRUSH

BISAM 44 BRUSH – THE SPECIALIST FOR FLOOR CLEANING

Sediment often remains at the bottom of the pond and can only be removed by brushing. The electrically operated BISAM 44 BRUSH is the ideal device for efficient and effortless cleaning.

By means of the rotation of the roller brush, the device automatically moves forward and backward in straight paths. Due to its own weight and the balancing weight supplied, the brush generates a strong contact pressure. The pressure and the rotation loosen the dirt from the floor. The BISAM 44 BRUSH is guided by the telescopic rod which can be extended up to 5 metres. The loosened dirt can be sucked off in parallel via an attached suction hose with a pond suction cleaner.

There is no easier and more effective way to clean pond bottoms!

- Efficient and easy cleaning
- Tool-free roller brush mounting
- Switch unit controls the direction of rotation of the brush attachment
- We recommend the Clear-Drum cleaning attachments

INCLUDED IN THE BASIC SET:

- BISAM 44 BRUSH
- Switch unit
- Telescopic rod TRIOVAL GRP 2.5 – 5.0 m
- Roller brush yellow, medium-soft
- Li-Ion battery set (4 Ah) or power supply unit
- Balance weight 1.5 kg
