

PRODUCT INFORMATION PULPO DUE

PULPO DUE - THE GIANT

The cleaning of municipal swimming ponds or larger hotel swimming ponds is very laborious. Until now, efficient cleaning failed because the available pond suction cleaners were too small and not powerful enough.

With the aim of providing you with the right equipment for cleaning large ponds, we have completely redesigned our former OCTOPUS 400 V sludge suction cleaner. The result of this process is the sludge suction cleaner PULPO due.

The suction effect of the PULPO due, which is completely free of electronics, is extremely strong, but can be easily and steplessly regulated by means of a valve. Optionally, two C-hoses can be used simultaneously via an accessory adapter.

- Suction capacity infinitely adjustable via a valve
- Easy working with two C-hoses at the same time by means of a Y-piece B to C
- Robust materials and stable construction
- 12 m long suction and drain hoses
- No service-intensive electronics
- 3 ~ 400 V AC voltage
- Working noise 72 dB (A)

SET INCLUDES:

- PULPO due water and sludge vacuum cleaner
- 12 m suction hose, size B
- 12 m drain hose, size B
- GRP telescopic rod 2.5 - 5.0 m
- Suction nozzle, round, \varnothing 75 mm

TECHNICAL DATA	Item No. PD001
SUCTION POWER	35,000 l/h
VOLTAGE	3 ~ 400 V AC
SIDE CHANNEL BLOWER	3,000 Watt
SEWAGE PUMP	3,000 Watt
WEIGHT	113.5 kg (without accessories)
SUCTION HOSE & DISCHARGE HOSE	12 m each, \varnothing 75 mm
VACUUM	310 mbar
DIMENSIONS	52 x 95 x 117 cm (W x D x H)
